The Fort Smith Trolley Museum is operated exclusively by the time and energy of generous volunteers. Without this help the museum would not be able to continue its mission of preserving our area's historical artifacts. Many tasks need to be done to keep the museum running smoothly.

Most volunteers come without prior experience in many of the areas in which they contribute. If someone has skills and interest in certain areas we like for them to match the job to the person. This is a partial list of needs. Please check the ones you are interested in.
